A HYGIENIC ELECTRIC BIDET SEAT

HERE'S AN EXTRAORDINARY TOILET SEAT DESIGNED TO MEET YOUR NEEDS.

Panasonic has been making advances in bidet technology for the past 40 years, and it now intends to help more people with its best electronic bidet seat.

They are difficult to clean and inconvenient for people with mobility limitations. They even cause the floor to become wet and Slippery and suffers from a problem of Frequent clogging.

Our ultra-hygienic chairs offer an easy way to clean even the most difficult messes.

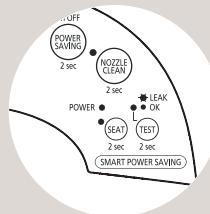

REMARKABLE FEATURES FOR OUR TOILET SEATS

NOZZLE

Stainless steel nozzle with a gapless design. It has the potential to decrease stain collection while also improving durability and providing an attractive appearance.

2 WASHING MODES

Nozzle adapts to the needs of both the rear wash and the front wash.

CLEANING BY OSCILLATION

Automatically moves the nozzle back and forth in 12mm to cover a large area.

CLEANING OF SPA MASSAGE

Water droplets are sprayed at a high frequency and alternate with air to deliver more efficient cleaning.

WATER TEMP. CONTROL

Three levels of water temperature control.

TILTED NOZZLE DESIGN

The tilted water flow angle design prevents unclean water from spilling back to the nozzle, ensuring hygiene and cleanliness.

CLEANING OF SPA MASSAGE

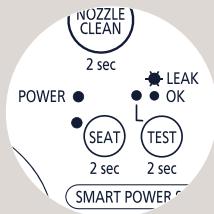

Ag⁺ material is applied to the surface of the seat to generate a 99%* antibacterial effect along with a broader pressure distribution region for comfortable sitting. Also, keeps you warm and comfortable in the room with strong air conditioning

STREAMLINED CURVE DESIGN

The connector between the bidet cover and the seat has been shortened to decrease the collection of filthy water and stains for easy cleaning.

SIDE PANEL DESIGN

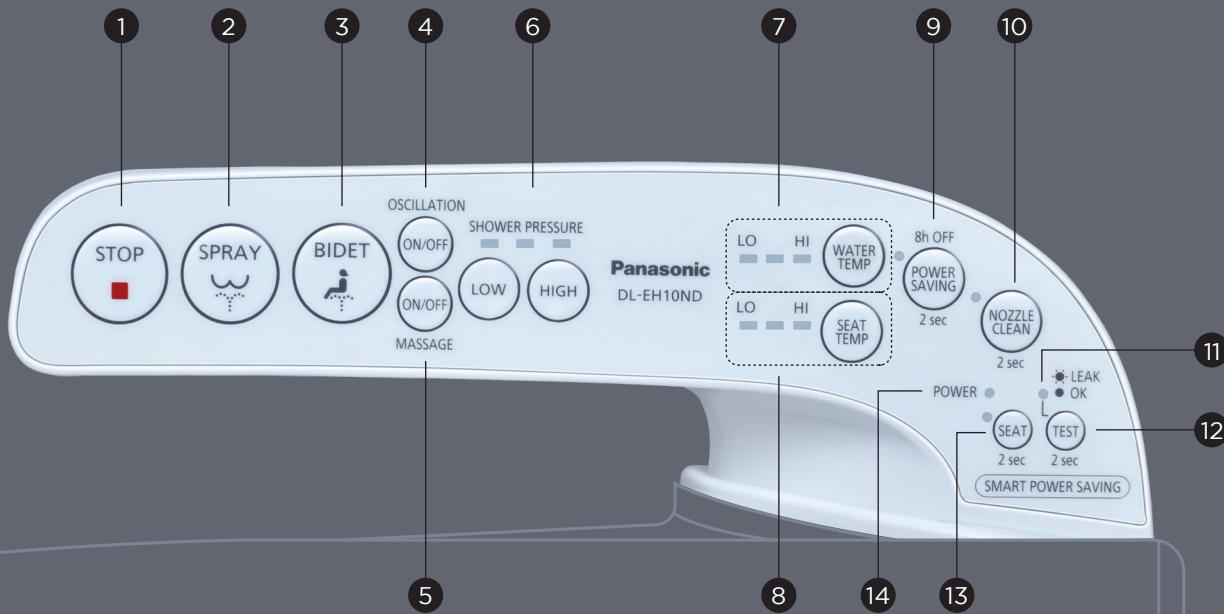

Due to the simplicity of the icon designs, anyone can immediately identify and use the functionalities of our seat.

BODY OPERATING UNIT

SIT AND USE THE TOILET.

Control Panel with easy operation. The control panel can be operated after you sit on the seat.
